Creative Enzymes®

Bacillus velezensis (feed grade)

Cat. No. PRBF-012

Lot. No. (See product label)

Introduction

Description	Bacillus velezensis is a Gram-positive, spore-forming bacterium that is widely found in soil and plant rhizosphere. It belongs to the genus Bacillus and has important applications in agriculture and biocontrol.
Applications	Agriculture: as a biopesticide and biofertilizer for disease control and crop yield increase. Environmental protection: used for soil remediation and organic waste treatment. Food industry: used as a probiotic in fermented foods and feed to improve food safety and animal health.

Product Information

Appearance	Light yellow powder
Form	Powder
Activity	100B CFU/g

Usage and Packaging

Package	1kg/bag

Storage and Shipping Information

Storage	Store in a ventilated, cool, dry place for up to 12 months.
