

Star Fruit powder

Cat. No. EXTZ-534

Lot. No. (See product label)

Introduction

Description

Star fruit powder is a nutrient-rich food additive made from fresh star fruit. Known for its distinctive star-shaped cross-section and sweet-tart flavor, star fruit is widely cultivated in tropical and subtropical regions. Star fruit powder retains the primary nutrients of the fresh fruit, including vitamin C, vitamin A, fiber, and various antioxidants. These components offer benefits such as enhancing immunity, promoting digestion, and providing antioxidant protection. Additionally, star fruit powder is low in calories and fat, making it suitable for those who are focused on a healthy diet and weight management.
