Jack Fruit powder

Cat. No. EXTZ-538

Lot. No. (See product label)

Introduction

Description	Jackfruit powder is a fine powder extracted and processed from jackfruit, a tropical fruit native to South Asia. Jackfruit is known for its sweet taste and rich nutritional content. The powder retains the natural aroma and nutrients of the fruit, and is commonly used in a variety of foods and beverages. Jackfruit powder is rich in vitamin C, B vitamins, minerals such as calcium, potassium, and magnesium, as well as dietary fiber. It helps to boost immunity, promote digestion, and maintain cardiovascular health.
