

Dandelion Peptide Powder

Cat. No. CAFP-038

Lot. No. (See product label)

Introduction

Description Dandelion Protein Peptide Powder is a functional ingredient derived from dandelion plants, known for its high protein content and bioactive peptides. These peptides are small protein fragments that are easily absorbed by the body, offering various health benefits. Dandelion Protein Peptide Powder is valued for its antioxidant, anti-inflammatory, and immune-boosting properties, making it a popular choice for health supplements and functional foods.

Applications It can be used in various applications, including dietary supplements, functional beverages, and as an ingredient in health-conscious food products.

Product Information

Appearance Off-white powder

Molecular Weight <1000 Da
