

Oat Protein Peptide Powder

Cat. No. CAFP-045

Lot. No. (See product label)

Introduction

Description Oat Protein Peptide Powder is made from oats extracted by enzymatic technology, rich in high quality protein and oligopeptides. Oats are favored for their excellent nutrients and health benefits. Protein Peptide Powder is light yellow in color with natural oat aroma, suitable for use in all kinds of food and beverages. Oat Protein Peptide Powder is known to boost immunity, support cardiovascular health and promote muscle recovery. Its rich protein and fiber can help regulate blood sugar levels and improve digestive health. Oat protein peptides also enhance athletic performance, aid in muscle recovery, and support overall health.

Applications Oat Protein Peptide Powder is suitable for use as a protein source in fitness drinks, functional foods and nutritional supplements. It is particularly suitable for consumers who need to increase their protein intake, improve digestive health and support exercise recovery. Can be added to shakes, energy drinks, and nutritional supplements.
