

Yam Peptide Powder

Cat. No. CAFP-048

Lot. No. (See product label)

Introduction

Description Yam Peptide Powder is obtained by enzymatic treatment of yam and is rich in natural protein peptides. Yam is widely used in traditional medicine and nutritional health care, and its peptide powder is light yellow in color with natural yam aroma. The product is suitable for use in various functional foods and nutritional supplements. Yam peptide powder has the effect of promoting digestion, enhancing immunity and improving skin health. Its rich amino acids and active ingredients can help support gastrointestinal health and improve immune function. Yam peptides also support skin repair and moisturization, enhancing skin elasticity and luster.

Applications Yam peptide powder is suitable for use as a protein source in nutritional supplements and functional foods. It is especially suitable for consumers who need to improve digestion, enhance immunity and maintain skin health. It can be added to milkshake, health food and nutritional drinks.
