Narcissus Tazetta Extract

Cat. No. CEFX-182

Lot. No. (See product label)

Introduction

Description	The scale-like leaves on the bulb of Narcissus are richer in stored nutrients for development than the seeds. It contains a variety of plant proteins and alkaloids, glycosides, etc. It contains tannins, which have excellent astringent effects on the skin, as well as moisturizing and regulating the sebum secretion of the skin.
Applications	Narcissus Bulb Extract is a common ingredient in highly effective skin care products for its multiple skin care benefits such as anti-aging, moisturizing, soothing and repairing as well as whitening. Its natural active ingredients not only help to improve the overall condition of the skin, but also have an elegant botanical background and safety, making it suitable for a wide range of skin care products.
