Creative Enzymes®

Plasma Protein Powder (food grade)

Cat. No. CEFX-337

Lot. No. (See product label)

Introduction

Description	Food grade plasma protein powder extracted from animal blood rich in immunoglobulin can protect the gastrointestinal tract and improve human immunity, and it also contains rich amino acids and high-quality proteins to supplement human nutritional needs. The processing technology of plasma protein powder completely eliminates the fishy taste of blood and reduces the viscosity, thus it has a better taste. The palatability of plasma protein powder is significantly better than other protein raw materials such as skimmed milk powder, fishmeal, puffed soybean.
Applications	The product has long been widely used in food, health products, cosmetics industry, especially in the meat industry in the mature products, the effectiveness of the product can protect the human body's gastrointestinal tract, improve immunity, supplement the body's nutritional needs. In meat products can improve the quality of meat products, nutrients.

Product Information

Appearance	Light yellow powder
Solubility	Soluble in water

Usage and Packaging

Package	10 kg/bag

Storage and Shipping Information

Storage	Vacuum aluminum film bag, 10Kg/bag, dry and avoid light.
