Creative Enzymes®

Advantame (synthesized)

Cat. No. CEFX-341

Lot. No. (See product label)

Introduction

Description	Advantame is a high-intensity sweetener that is 20,000 times sweeter than sucrose, making it the sweetest sweetener ever developed for commercial use. It can be used in a wide variety of food products as a sweetener and flavor enhancer.
Applications	Used as a food additive, feed additive, fertilizer additive, cosmetic, raw material, etc.

Product Information

Appearance	White to yellow crystalline powder
CAS No.	165450-17-9
Molecular Formula	C24H30N2O7·H2O
Molecular Weight	476.52

Usage and Packaging

Package	1 kg/bag

Storage and Shipping Information

Storage	Keep in a cool and dry place.
