Freeze-dried Bovine Liver Powder

Cat. No. FDBLP-100

Lot. No. (See product label)

Introduction

Description	Freeze-dried Bovine Liver Powder is a natural, high quality nutritional supplement made from fresh bovine liver refined through advanced freeze-drying technology to preserve the rich nutrients found in bovine liver. Bovine Liver is rich in many vitamins, minerals and proteins, especially Vitamin A, Vitamin B12, Iron and Folic Acid, which help to support the health of the immune system, promote the production of red blood cells, and enhance physical and metabolic functions.
Applications	Freeze-dried bovine liver powder retains the natural flavor of fresh liver, has a long shelf life, and is easy to store and transport. This product is widely used in food, nutraceuticals and functional food ingredients for people who want to improve their health by supplementing with natural nutrients.
