

Medicago sativa Extract

Cat. No. EXCF-025

Lot. No. (See product label)

Introduction

Description Product composition: Butylene Glycol, Water, Alfalfa (Medicago sativa) Extract This product is a natural, plant-based anti-blue light product with a core ingredient derived from alfalfa from the Lhasa region of Tibet. It not only protects against blue light, but also 'repairs' skin damage caused by blue light and UV, making it a safe and effective ingredient for photoprotection.

Applications Used for comprehensive repair products.

Synonyms Alfalfa Extract, Medicago sativa

Product Information

Appearance Yellow to brownish yellow transparent liquid
