Pueraria flower extract

Cat. No. EXTZ-571

Lot. No. (See product label)

Introduction

Description	Pueraria flower extract is a natural component extracted from the flowers of the leguminous plant Pueraria lobata. It is believed to improve metabolic disorders caused by alcohol, reduce the absorption of alcohol in the digestive tract, and enhance the activity of alcohol dehydrogenase (ADH), thereby providing an effective anti-alcohol effect. The flavonoid components in Pueraria flower extract have strong antioxidant properties and offer protective effects for the liver.
