

Anti-ageing peptide

Cat. No. EXCF-032

Lot. No. (See product label)

Introduction

Description

Product composition: Water, Palmitoyl Tripeptide-5, Hydrolysed Collagen, 1,2-Hexanediol, Ethylhexyl Glycerin This product combines two highly effective anti-aging actives to fight skin aging problems in three dimensions. By activating the growth factor TGF- β , it thus empowers the epidermis, remodelling the DEJ and repairing the dermal reticulation.

Applications

For wrinkle removal products

Product Information

Appearance

Colourless to light yellow transparent liquid

Form

Liquid

Purity

Solid content: $\geq 0.5\%$ Total peptide content(UV): $\geq 0.3\%$

Optimum pH

6.5-7.5

Function

Increases growth factor secretion and promotes proliferation of keratin-forming cells. Promotes the synthesis of three key proteins, type IV and type VII collagen. Promotes fibroblast proliferation and accelerates the regeneration of the reticular structure.

Usage and Packaging

Package

10kg or 25kg/drum

Storage and Shipping Information

Storage

24 months with original packing under 18°C. Store in cool dry place, avoid sunlight and high temperature.
