

Custard Apple powder

Cat. No. EXTZ-561

Lot. No. (See product label)

Introduction

Description

Custard apple powder is a powdered product processed from custard apple fruit, with a delicate texture and a unique sweet flavor characteristic of custard apples. The powder retains the nutritional components of the custard apple, including vitamin C, protein, iron, calcium, phosphorus, and other minerals, making it highly nutritious. It can be conveniently added to various foods and beverages, such as smoothies, yogurt, baked goods, etc., to enhance flavor and nutrition. Custard apple powder is suitable for athletes and individuals who need to replenish energy due to its rich nutritional content.
