

Green Cardamom powder

Cat. No. EXTZ-570

Lot. No. (See product label)

Introduction

Description Green cardamom powder, also known as small cardamom powder, is a powder ground from the seeds of green cardamom. Green cardamom powder has a unique spicy and slightly bitter taste, coupled with a fresh aroma. It is not only used for seasoning but also has certain medicinal values. In traditional medicine, green cardamom is used to treat digestive problems and as a stomachic. In addition, it is rich in various nutrients, such as protein, fat, carbohydrates, vitamins, and minerals.
