

Java Tea Extract

Cat. No. CEFX-218

Lot. No. (See product label)

Introduction

Description

Java Tea Extract is derived from the leaves of the Orthosiphon stamineus, a tropical plant native to Southeast Asia. Often referred to as "cat's whiskers" due to the shape of its flowers, Java Tea has been traditionally used in herbal medicine for its diuretic, anti-inflammatory, and antioxidant properties. The extract is rich in bioactive compounds such as flavonoids, terpenes, and phenolic acids, which contribute to its therapeutic benefits. Java Tea Extract is commonly used in supplements and functional foods designed to support kidney health, detoxification, and overall wellness.

Applications

Java Tea Extract is a versatile ingredient with wide-ranging benefits for kidney health, detoxification, inflammation reduction, and antioxidant protection. Its applications in dietary supplements, functional foods, and beauty products make it a valuable natural component in holistic wellness formulations.

Product Information

Species

Clerodendranthus spicatus

Appearance

Brown powder

Purity

10 ratio 1

Usage and Packaging

Package

25KG/Drum with double plastic bag of foodstuff inside

Storage and Shipping Information

Storage

2 years under well storage situation and stored away from direct sun light
