

Chondrus Crispus Extract

Cat. No. CEFX-224

Lot. No. (See product label)

Introduction

Description

Chondrus Crispus, commonly known as Irish Moss, is a type of red seaweed native to the Atlantic coasts of Europe and North America. The extract of Chondrus Crispus is rich in nutrients such as carrageenan, iodine, calcium, magnesium, and a variety of trace minerals, amino acids, and vitamins. This seaweed extract is prized for its ability to support hydration, boost immune function, and promote digestive health. Due to its natural gelling properties, it is widely used in the food and cosmetics industries.

Product Information

Purity

10 ratio 1

Usage and Packaging

Package

25KG/Drum with double plastic bag of foodstuff inside

Storage and Shipping Information

Storage

2 years under well storage situation and stored away from direct sun light
