

## Black Seed Extract

Cat. No. CEFX-242

Lot. No. (See product label)

### Introduction

**Description** Black Seed Extract is derived from the seeds of *Nigella sativa*, a flowering plant native to South and Southwest Asia. The seeds, often called black cumin seeds, have been used for centuries in traditional medicine for their healing properties. The extract is rich in thymoquinone, a potent bioactive compound known for its antioxidant, anti-inflammatory, and antimicrobial effects. Black Seed Extract is also a source of essential fatty acids, vitamins, and minerals, contributing to its wide range of health benefits. It is commonly used in dietary supplements, skincare products, and functional foods due to its supportive effects on immune health, skin, and general wellness.

**Applications** Black Seed Extract is a powerful, multi-functional ingredient with applications across immune support, skincare, digestive health, and metabolic wellness. Its diverse range of health benefits makes it an essential component in many natural health products.

### Product Information

<b>Species</b>	Nigella Sativa
<b>Appearance</b>	Yellowish brown powder
<b>Purity</b>	10 ratio 1

### Usage and Packaging

<b>Package</b>	25KG/Drum with double plastic bag of foodstuff inside
----------------	---

### Storage and Shipping Information

<b>Storage</b>	2 years under well storage situation and stored away from direct sun light
----------------	--
