Creative Enzymes®

Apple Dietary Fiber

Cat. No. CEFX-228

Lot. No. (See product label)

Introduction

Description	Apple Dietary Fiber is a natural dietary fibre extracted from apples, rich in soluble and insoluble fibres, including pectin, cellulose and lignin. It is a nutritious and functional health ingredient with good water-solubility, water-absorption and viscosity, which is suitable for application in a variety of food and health products.
Applications	Food Industry Bakery: Used in bread, cakes, biscuits, etc. to enhance texture and nutritional value. Beverages: As a source of dietary fibre in functional beverages to enhance health attributes. Dairy products: Add to yoghurt, cheese and other products to improve taste and fibre content. Ready-to-eat food: Such as cereal bars and meal replacement powders to enhance satiety and health attributes. Nutraceuticals As a core ingredient in dietary supplements, alone or mixed with other fibres to promote intestinal health and metabolic balance. Pet Food Used to improve gastrointestinal function and promote healthy digestion in pets.

Product Information

Appearance	Brownish yellow powder

Usage and Packaging

Package	25KG/Drum with double plastic bag of foodstuff inside

Storage and Shipping Information

Storage	2 years under well storage situation and stored away from direct sun light
