Creative Enzymes®

Selenium Bisglycinate

Cat. No. CEFX-320

Lot. No. (See product label)

Introduction

Description	Selenium Bisglycinate is a selenium supplement in the form of a glycine chelate. It combines selenium and two glycine molecules, resulting in a significant increase in selenium bioavailability while reducing the risk of gastrointestinal irritation. Selenium is an essential trace element involved in a variety of physiological processes, particularly antioxidant and immune functions.
Applications	Dietary Supplement Suitable for immune support and antioxidant formulas to help combat oxidative stress and promote thyroid health. Supports cardiovascular health and reduces the risk of chronic inflammation. Food Fortification For use in functional foods such as nutritional drinks, energy bars or meal replacement powders. Special Population Health Particularly suitable for people who are immunocompromised, have thyroid dysfunction or have high antioxidant needs.

Product Information

Appearance	Off-white powder

Usage and Packaging

Package	25KG/Drum with double plastic bag of foodstuff inside

Storage and Shipping Information

Storage	2 years under well storage situation and stored away from direct sun light
