

Camellia Oil

Cat. No. CEFX-368

Lot. No. (See product label)

Introduction

Description Camellia oil, also known as tea seed oil, is a vegetable oil cold-pressed or refined from the seeds of the camellia tree (*Camellia oleifera* or *Camellia japonica*). This natural oil is popular in the food, nutraceutical and cosmetic industries due to its rich nutrient content, mildness and versatility.

Applications Cosmetics & Skin Care Skin care oils: used in lotions, serums and creams to nourish and moisturise, antioxidant and repair barrier function. Hair Care: Add to shampoos, conditioners or hair masks to prevent dryness and split ends. Baby Care: As a baby massage oil or skin care ingredient, gentle and non-irritating. Nutraceuticals Extracted into capsule or liquid form for support of cardiovascular health and antioxidant protection.
