

Pseudomonas aeruginosa 3-valent bacteriophage

Cat. No. BPEL-022

Lot. No. (See product label)

Introduction

Description Pseudomonas aeruginosa is able to survive in water bodies, soil, medical equipment, and food processing environments, forming biofilms and contaminating the environment. It can tolerate high temperatures, high salts, and some conventional disinfectants, leading to increased difficulty in cleaning medical equipment, water sources, and public places. Pseudomonas aeruginosa trivalent phage specifically kills Pseudomonas aeruginosa in the environment.

Applications It can be used indoors, in cars, bathrooms, refrigerators, kitchens, children's rooms, pet rooms, surgical appliances, instrument trays, etc.

Product Information

Appearance Transparent colourless liquid

Activity Titer $\geq 1 \times 10^7$ PFU/mL

Usage and Packaging

Package 30ml/bottle

Storage and Shipping Information

Storage Keep sealed and refrigerated at 2-8°C for 6 months. Once opened, please use it within one week.
