Nobiletin

Cat. No. CEFX-408

Lot. No. (See product label)

Introduction

Description	Nobiletin is a natural flavonoid compound extracted from the peel of C.aurantium L. It is highly bioactive and typically presented in a 98% pure form, widely used in health supplements, functional foods, cosmetics, and traditional medicines. Nobiletin is known for its powerful antioxidant and anti-inflammatory properties, offering potential benefits for various health concerns.
Applications	Nobiletin is a multifunctional natural compound with a wide range of biological activities such as antioxidant, anti-aging, anti-inflammatory, anticancer and cardiovascular protection, and is widely used in nutraceuticals, cosmetics and functional foods. It not only helps to promote health, but may also play an important role in anti-cancer, anti-diabetic and neuroprotection.

Product Information

Species	C.aurantium L.
Source	peel
Appearance	White powder
Purity	98% by HPLC
Function	1. Functional Foods and Beverages: As a natural health ingredient, Nobiletin can be added to health drinks, dietary supplements, energy bars, and other food products. 2. Anti-aging and Beauty: Due to its antioxidant properties, Nobiletin is often used in anti-aging skincare products to help slow down aging, protect skin from UV damage, and improve skin health. 3. Cardiovascular Health: Nobiletin helps lower blood lipids and improve vascular health, making it useful in cardiovascular supplements. 4. Metabolic Health: It is also used in health products aimed at regulating blood sugar and lipid metabolism, particularly for managing diabetes and obesity.

Usage and Packaging

Package	1kg aluminum foil vacuum bag

Storage and Shipping Information

Storage	In a cool, dry place away from direct sunlight
