

Thyroid powder

Cat. No. CEFX-410

Lot. No. (See product label)

Introduction

Description Thyroid powder is a powder extracted from animal thyroid glands, usually derived from porcine or bovine thyroid glands. It is rich in thyroid hormones (Liothyronine and Levothyroxine), which play a vital role in regulating metabolism, energy production, temperature control and cellular function in the body. Thyroid powder is commonly used to supplement thyroid hormone deficiencies such as Hypothyroidism.

Applications Thyroid powder, as a natural source of thyroid hormone supplement, has important applications in the treatment of hypothyroidism, improving metabolism, enhancing stamina and improving skin health.

Product Information

Source Thyroid

Appearance Yellowish to buff-colored, amorphous powder, with a slight, characteristic, meat-like odor and a saline taste

Usage and Packaging

Package 1kg aluminum foil vacuum bag

Storage and Shipping Information

Storage In a cool, dry place away from direct sunlight
