Bamboo Extract

Cat. No. CEFX-411

Lot. No. (See product label)

Introduction

Description	Bamboo Extract is a natural plant-based extract derived from bamboo aboveground, standardized to contain a high concentration (70%) of silica. Silica is a vital trace element that plays an essential role in the production of collagen and the maintenance of connective tissues such as skin, hair, nails, and bones.
Applications	It is used in health care products, cosmetics, agriculture and industry. Its main functions include promoting bone and skin health, enhancing hair quality, improving material properties, etc.
