Creative Enzymes®

Active Coenzyme Q10 Liposome

Cat. No. EXTZ-605

Lot. No. (See product label)

Introduction

Description	Coenzyme Q10 is a quinone ring compound that is widely present in mitochondria throughout the body. It has stronger antioxidant function than vitamin C and vitamin E, can effectively remove free radicals, and has excellent anti-aging, whitening and moisturizing functions. Coenzyme Q10 is a fat-soluble compound and is not water-soluble. Active Coenzyme Q10 Liposome is a coenzyme Q10 nano-active substance developed using a nano-transmission system. It has the characteristics of good stability, high safety, good solubility, and high bioavailability.
