Creative Enzymes®

L-Se-methylselenocysteine

Cat. No. EXTZ-609

Lot. No. (See product label)

Introduction

Description	L-Se-methylselenocysteine is a methylselenated derivative of L-selenocysteine, the 21st essential amino acid for humans. It offers the advantages of a well-defined chemical structure, low toxicity, high bioavailability, and effective selenium supplementation. It not only has a preventive effect on various tumors (such as breast cancer, prostate cancer, liver cancer, etc.) but also serves as an adjunct in cancer treatment. As a new selenium nutritional fortifier, it holds broad application prospects.
