Active Vitamin E Liposome

Cat. No. EXTZ-614

Lot. No. (See product label)

Introduction

Description	Vitamin E is a fat-soluble vitamin widely found in plant leaves, cereal germ oil, and milk. It is a well-known antioxidant and moisturizing ingredient and is an essential component of the epidermal layer. Nano-encapsulation significantly enhances the stability of vitamin E and increases the utilization rate of active substances; Active Vitamin E Liposome is easy to use and can dissolve in water to form a clear solution.
