

Terlipressin Acetate

Cat. No. CEPP-017

Lot. No. (See product label)

Introduction

Description

Terlipressin Acetate is a synthetic vasopressin analog that primarily acts as a vasoconstrictor, making it effective in treating conditions where increased vascular tone is necessary. It is often used to manage variceal bleeding in patients with cirrhosis, as well as other conditions involving hypotension or shock.

Product Information

Appearance White or off-white powder

CAS No. 52232-67-4

Molecular Formula C₅₂H₇₄N₁₆O₁₅S₂

Molecular Weight 1227.37 g/mol

Usage and Packaging

Package 1G/Bottle, 10G/Bottle, 50G/Bottle or at customers requirement.

Storage and Shipping Information

Storage 2~8°C
