Beef Protein Isolate

Cat. No. CEFX-432

Lot. No. (See product label)

Introduction

Description	Beef Protein Isolate is a high-purity protein extracted from high-quality beef. It has been separated and purified using advanced separation and purification technology to remove fat and carbohydrates, while retaining rich protein content. With a protein content of more than 90%, it is an ideal source of high-quality protein and is widely used in sports nutrition, functional foods, health supplements, and other fields.
Applications	Sports nutrition Produce protein powder and meal replacement drinks to provide efficient protein supplements for fitness and sports people. Functional food Add to energy bars, protein biscuits or other functional foods to enhance nutritional value. Medical nutrition Used for nutritional support of patients or the elderly to improve the problem of insufficient protein intake. Pet food An important ingredient in high-protein pet food, providing a high-quality protein source.
