L-Arginine

Cat. No. CEFX-439

Lot. No. (See product label)

Introduction

Description	L-Arginine is a semi-essential amino acid that plays a crucial role in various physiological functions. As a precursor to nitric oxide (NO), it supports blood circulation, cardiovascular health, and immune function. It is also involved in protein synthesis, muscle growth, and metabolism.
Applications	L-Arginine is widely used as a nutritional supplement, food additive, and functional ingredient in various industries.

Product Information

Appearance	White powder

Usage and Packaging

Package	25kg/drum, or according to customers' requirements

Storage and Shipping Information

Storage	Please keep it in a cool and dry place， protected from light.
