Slippery Elm Bark Powder

Cat. No. EXTZ-619

Lot. No. (See product label)

Introduction

Description	Slippery Elm Bark is a powder made from the inner bark of the slippery elm tree. It contains a rich amount of mucilage, a component that forms a gel-like substance when mixed with water. This gel has soothing and anti-inflammatory properties. It is commonly added to lozenges or teas to help relieve sore throats and coughs. Additionally, Slippery Elm Bark powder can be used to treat skin conditions such as eczema, dermatitis, and burns. It has anti-inflammatory effects that can promote wound healing.
