Peppermint Leaf Fine Powder

Cat. No. EXTZ-621

Lot. No. (See product label)

Introduction

Description	Peppermint Leaf Fine Powder is made by drying peppermint leaves and grinding them into a fine powder. It has a refreshing peppermint aroma and a cool taste, making it a versatile natural ingredient. It is commonly used in cooking and baking to add a refreshing peppermint flavor to dishes. Additionally, peppermint leaf powder contains menthol, which aids digestion and freshens breath. Peppermint leaf powder can also be used in skincare products for its soothing and cooling properties, helping to relieve itchy skin.
