Evening Primrose Powder

Cat. No. EXTZ-627

Lot. No. (See product label)

Introduction

Description	Evening Primrose Powder is a powder made from the whole plant of evening primrose. Evening primrose is rich in various nutrients, particularly gamma-linolenic acid (GLA), which is a beneficial Omega-6 fatty acid for human health. Evening Primrose Powder is commonly used as a dietary supplement to support skin health, alleviate symptoms of premenstrual syndrome (PMS), improve hormonal balance, and promote cardiovascular health. Additionally, it possesses anti-inflammatory and antioxidant properties, making it widely used in natural health and beauty products.
