

Milk basic protein powder

Cat. No. CEFX-450

Lot. No. (See product label)

Introduction

Description

Milk Basic Protein (MBP) Powder is a functional dairy-derived protein extract that plays a crucial role in bone health, calcium metabolism, and overall skeletal strength. MBP is naturally found in whey and skim milk and is rich in bioactive peptides that support bone formation and reduce bone loss. This makes it an excellent ingredient for bone health supplements, functional foods, and dairy-based formulations.

Applications

Dietary Supplements – Used in capsules, tablets, and protein powders for bone health support. Functional Beverages – Incorporated into fortified dairy drinks, sports nutrition, and health beverages. Infant & Elderly Nutrition – Ideal for bone-strengthening formulas for children and aging populations. Medical & Clinical Nutrition – Used in osteoporosis prevention and recovery formulations.

Synonyms

MBP (Milk basic protein)
