

## Tuna Collagen Peptides (L-anserine)

Cat. No. CAFP-062

Lot. No. (See product label)

### Introduction

**Description** Tuna Collagen Peptides (L-Anserine) is a premium bioactive peptide derived from high-quality tuna collagen, with a notable presence of L-anserine, a naturally occurring dipeptide known for its antioxidant and physiological benefits. This peptide powder is produced through enzymatic hydrolysis, ensuring high purity, excellent solubility, and enhanced bioavailability.

**Applications** Dietary Supplements – Used in collagen powders, capsules, and functional beverages. Sports Nutrition – Ideal for recovery drinks and muscle-supporting formulas. Cosmetic & Skincare – Incorporated into beauty supplements for anti-aging and skin hydration benefits. Medical & Functional Foods – Applied in bone and joint health formulations.

**Synonyms** Tuna; L-anserine; anserine

### Product Information

**Appearance** White or light yellow powder

**Molecular Weight** <1000 Da

**Activity** 2%-27% L-anserine

### Usage and Packaging

**Package** 20kg, 25kg/ bag

### Storage and Shipping Information

**Storage** Store in a cool, ventilated and dry place, avoid direct sunlight.
