Creative Enzymes®

Moringa Seed Extract

Cat. No. EXTZ-634

Lot. No. (See product label)

Introduction

Description

Moringa Seed Extract is a natural component derived from the seeds of the Moringa tree. The seeds of the Moringa tree are rich in various bioactive substances, such as polyphenols and flavonoids, which help neutralize free radicals and delay aging. The protein and amino acid components provide nutritional support, promoting cell repair and regeneration. Minerals and vitamins contribute to enhancing immunity and maintaining overall health. With its rich nutritional content and diverse bioactive properties, Moringa Seed Extract has broad application prospects in fields such as food, cosmetics, and medicine. Additionally, Moringa seeds are abundant in oleic acid, which nourishes the skin, improves skin barrier function, and is commonly used in skincare products.
