

Bovine Intestines Powder

Cat. No. CEFX-466

Lot. No. (See product label)

Introduction

Description Bovine Intestines Powder is a powder made by washing, dehydrating and drying the intestines of healthy cows. It is rich in collagen, elastin, amino acids, minerals (such as calcium, phosphorus) and other bioactive ingredients. Due to its rich protein and minerals, Bovine Intestines Powder has a variety of nutritional functions and applications.

Applications Used in dietary supplements, functional foods, joint health, digestive health and skin care products.
