

Bovine Trachea (Cartilage) Powder

Cat. No. CEFX-472

Lot. No. (See product label)

Introduction

Description Bovine Trachea (Cartilage) Powder is rich in cartilage matrix and glycosaminoglycans (such as chondroitin sulfate and hyaluronic acid), which has a good support effect on joint health. It is often used in joint health products to help lubricate joints, relieve joint pain, and promote joint repair. The special ingredients of tracheal cartilage can also be used in respiratory system support products.
