

Red Vine Leaf Extract

Cat. No. CEFX-477

Lot. No. (See product label)

Introduction

Description

Red Vine Leaf Extract is a natural plant ingredient extracted from red grape leaves, rich in flavonoids (such as resveratrol), anthocyanins, tannic acid, vitamins and minerals.

Applications

Red Vine Leaf Extract is mainly used in the fields of promoting vascular health, anti-aging, anti-inflammatory and improving blood circulation, and is suitable for many industries such as health products, skin care products and medicines. Its natural plant ingredients and multiple bioactive substances make it a very effective health and beauty ingredient.
