Sophara Angustifolia extract

Cat. No. CEFX-479

Lot. No. (See product label)

Introduction

Description	Sophora Angustifolia Extract is a natural plant ingredient extracted from the root of the Sophora angustifolia plant, which belongs to the Leguminosae family and is widely distributed in China, South Korea, and Japan. Sophora angustifolia has been used in traditional Chinese medicine to treat a variety of diseases since ancient times. Its main active ingredients include alkaloids, flavonoids, steroids, and other natural compounds.
Applications	Sophora angustifolia root extract is widely used in health supplements, anti-aging products, anti-inflammatory drugs, skin care products, and liver health due to its multiple health benefits such as antibacterial, anti-inflammatory, immune enhancement, and anti-tumor. Its natural active ingredients make it an ideal herbal ingredient for a variety of health products.
