Pandanus Tectorius powder

Cat. No. EXTZ-640

Lot. No. (See product label)

Introduction

Description	Pandanus Tectorius powder is a powder derived from the Pandanus tectorius plant. The roots, fruits, and kernels of this plant can be used medicinally and possess a variety of therapeutic values. In some regions, the leaves of Pandanus tectorius are also utilized in the production of hair care products, believed to enhance the health and luster of hair.
