

Recombinant Human Kininogen Protein

Cat. No. NATZ-119

Lot. No. (See product label)

Product Information

| | |
|-------------------------|--|
| Source | Mouse myeloma cell line, NS0-derived human Kininogen protein. Gln19-Ser644, with an N-terminal signal sequence and a C-terminal 10-His tag |
| Form | Lyophilized |
| Molecular Weight | Predicted Molecular Mass: 71 kDa (mature), 41 kDa (heavy) & 30 kDa (light) |
| Purity | >95%, by SDS-PAGE under reducing conditions and visualized by silver stain |

Storage and Shipping Information

| | |
|----------------|-------|
| Storage | -20°C |
