Creative Enzymes®

Millet seed extract

Cat. No. EXTZ-684

Lot. No. (See product label)

Introduction

Description	Millet seed extract is a natural component derived from the seeds of the Poaceae plant Panicum miliaceum L., it possesses a variety of biological activities and application values. Millet extract contains a range of amino acids and proteins, as well as multiple vitamins and minerals, all of which are essential nutrients for the body. Additionally, millet extract is rich in dietary fiber, which helps regulate intestinal function. The polyphenol components in millet extract, such as proanthocyanidins and flavonoid compounds, endow it with antioxidant properties, making it suitable for the development of skincare or hair care products.
