Flaxseed diglyceride microencapsulated powder

Cat. No. EXTZ-687

Lot. No. (See product label)

Introduction

Description	Flaxseed glyceride distearate microcapsule powder is a powdered product made primarily from flaxseed glyceride distearate oil and isomalto-oligosaccharides through scientific processing. It contains nutrients such as Omega-3, lignans, and alpha-linolenic acid. The powder has good flowability, is easy to dissolve, and is easy to store.
