

## Sage Oil

*Cat. No. EXTZ-688*

*Lot. No. (See product label)*

### **Introduction**

#### **Description**

Salvia is a perennial herb that is native to the Mediterranean region and is now widely cultivated around the world. Sage oil is an essential oil extracted from the leaves and flowers of *Salvia officinalis*. It has a strong herbal aroma and is typically light yellow to amber in color. Sage oil has antibacterial, anti-inflammatory, and antioxidant properties and can be used to treat skin problems such as acne, eczema, and dermatitis. It can also promote wound healing and reduce scarring. Additionally, sage oil has insect-repelling and invigorating effects. However, pregnant and breastfeeding women should avoid using sage oil, as its components may have adverse effects on the fetus or infant.
