

Chamomile Oil

Cat. No. EXTZ-689

Lot. No. (See product label)

Introduction

Description

Chamomile oil is an essential oil extracted from the flowers of chamomile (Chamomile). Chamomile oil is beneficial for dry and sensitive skin, as it can enhance the skin barrier, improve moisturizing capabilities, and alleviate redness and sensitivity. In addition to its skin benefits, chamomile oil also has soothing properties that can help relieve anxiety, tension, anger, and fear, and assist in improving insomnia. The main industries where this product can be applied include daily chemical products, beauty and skin care, medical health care, and aromatherapy. Some customers also add it to food.
