Soursop Leaf Extract

Cat. No. CEFX-311

Lot. No. (See product label)

Introduction

Description	Soursop Leaf Extract is derived from the leaves of the soursop fruit (scientific name: Annona muricata Linn., also known as Soursop). This extract contains a variety of beneficial substances for the human body, including vitamin C, minerals, and a high amount of antioxidants that boost immunity. Additionally, it is rich in substances known as Annonaceous Acetogenins, which are believed to help balance health and prevent and treat mutated toxins within the body. Research indicates that the extract from soursop leaves has the ability to inhibit and attack mutated cells, and it also demonstrates antibacterial effects against oral pathogens. These characteristics have made Soursop Leaf Extract widely used in traditional medicine.
