Soursop Fruit Extract

Cat. No. CEFX-312

Lot. No. (See product label)

Introduction

Description	Soursop Fruit Extract is derived from the fruit of the soursop tree (scientific name: Annona muricata Linn., also known as Soursop). This extract contains a variety of beneficial compounds for human health, including vitamin C, minerals, and a high concentration of antioxidants that enhance immunity. Additionally, it is rich in a group of compounds known as Annonaceous Acetogenins, which are believed to help balance health and prevent and treat mutated toxins within the body.
