Creative Enzymes®

Citrus fibe

Cat. No. EXTZ-705

Lot. No. (See product label)

Introduction

Description	Natural citrus fiber is derived from high-quality citrus peels and refined through advanced technologies, while preserving the natural properties of the raw material. The product is non-GMO and free from common allergens, fully meeting modern consumers' expectations for "clean labels". With its excellent water absorption, emulsifying and gelling capabilities, natural citrus fiber is widely used in the food and daily cosmetics industries, facilitating the optimization of product texture and the innovation of formulations.
